Letter of application

I kindly request you to consider my application for post-doctoral fellowship at the Department of Fundamental Research in Energy Engineering of Faculty of Energy and Fuels at AGH University of Science and Technology.

The reason for my request is my desire to participate in the *Easy-to-Assemble Stack Type (EAST): Development of solid oxide fuel cell stack for the innovation in Polish energy sector* project. I fulfill the requirements defined in the competition announcement and my scientific interests are consistent with the scope of related responsibilities.

I am enclosing the following documents:

- CV,
- Personal questionnaire for an applicant
- A copy of Ph. D. diploma
- Information on scientific achievements
- Summary of professional accomplishments
- Recommendation letter

Yours faithfully,

[Signature]
